

Adhesive

1	GB adhesive Paste	Adhesive Paste for all perpose usage
2	GB filler VA Plus	Finishing agent for imparting a full and stiff, wash-fast finish to textile materials
3	GB resin M 70	is a Cross-linking agent for finishing of technical textiles. On synthetic fiber material (higher amount gives full & harder handle), Adding GBdensol FM will insure durable finishing. ** produces a resilient springy effect on viscose & *** granting excellent wash & rub fastness in pigment printing As well as reducing the amount of binder needed.
4	GB copolymer Soft -Taky	Aqueous, self-cross linking polymer dispersion for coating and laminating textiles and nonwovens composed of all fiber types and their blends. High quality coating & granting excellent outstanding new handle & is used as anti slipping finishing agent . Viscose (pasty) Copolymer dispersion of high solid content & can be used without adding synthetic thickener to save cost .
5	GB pu Water -Base	Aqueous Nano - POLYURETHANE dispersion , used as a base inks to be color with GBsuper pigments , as well as water -base coating textiles of all fiber types and blends. Viscosity can be adjusted with GBsyn. Thickner GP High quality results of fastness and soft handle binder for printing (glittering, silver, golden, metallic, flock & foil textile , leather ...etc). GBpu Water -Base is used as a Mid COAT after base coat layer (film) APEO free & formaldehyde free..... meeting eco standard 100

6	GB copolymer	Wash fast finishing agent. it's used as soft filing. binder and coating agent for Non-woven, needle felts and carpets. Adhesive for industrial applications & anti slipping & anti cleavage.
7	GB copolymer Plus	Wash fast finishing agent. APEO free, it's used as soft filing. binder and coating agent for Non-woven, needle felts and carpets. Adhesive for industrial applications. & anti slipping & anti cleavage
8	GB copolymer Hard Taky	Aqueous, self-crosslinking polymer dispersion for coating textiles and nonwovens composed of all fiber types and their blends.
9	GB fillerVA	Finishing agent for imparting a full and stiff, wash-fast finish to textile materials
10	GB copolymer Hard Taky Free	Aqueous, self-crosslinking polymer dispersion for coating textiles and nonwovens composed of all fiber types and their blends.
11	GB size PP Conc	Size for staple-fiber yarns composed of cellulosic fibers, polyester/ cellulosic blends, wool and polyester/wool blends. adhesive for general purposes
12	GB copolymer Soft Taky Free	Aqueous polyurethane dispersion for low odor paints and textured finishes for interior and exterior use binders for leather, Polypropylene, Aramid, Nomex,PVC ... as well as high quality
