

## Coating & Sizing

1	<b>GB</b> copolymer	Wash fast finishing agent. it's used as soft filing. binder and coating agent for Non-woven, needle felts and carpets. Adhesive for industrial applications & anti slipping & anti cleavage.
2	<b>GB</b> copolmer Plus	Wash fast finishing agent. APEO free, it's used as soft filing. binder and coating agent for Non-woven, needle felts and carpets. Adhesive for industrial applications. & anti slipping & anti cleavage
3	<b>GB</b> copolymer Soft Taky	Aqueous, self-cross linking polymer dispersion for coating and laminating textiles and nonwovens composed of all fiber types and their blends. High quality coating & granting excellent outstanding new handle & is used as anti slipping finishing agent . Viscose ( pasty ) Copolymer dispersion of high solid content & can be used without adding synthetic thickener to save cost .
4	<b>GB</b> copolymer Hard	Aqueous, self-crosslinking polymer dispersion for coating textiles and nonwovens composed of all fiber types and their blends.
5	<b>GB</b> copolymer Hard Taky Free	Aqueous, self-crosslinking polymer dispersion for coating textiles and nonwovens composed of all fiber types and their blends.
6	<b>GB</b> copolymer Soft Taky Free	Aqueous polyurethane dispersion for low odor paints and textured finishes for interior and exterior use as well as high quality بولي يوريشان binders for leather, Polypropylene, Aramid, Nomex,PVC ...
7	<b>GB</b> size ECO	Water-soluble sizing agent for polyester filament yarns. Water-soluble sizing agent for warp yarns composed of cellulosic fibers and polyester/cellulosic fiber blends. GBsize ECO is particularly suitable for sizing of denim warps.

Cairo head office: 9,square 1163,El Shaheed Fouad Thabet St.,El Wozara square Sheraton Heliopolis.Cairo- Egypt

Tel: +20222683983, +201228099699 Fax : +202 2268466 E-mail: logistics@gb-chem.net , gbchem@gb-chem.net

Alex. Office :6, Talat Harab St.,Down Town Alexandria, Egypt

Tel.:+203 4819240, +201221148181 Fax:+203 4817565 E-mail: logistics@gb-chem.net , gbchemalex@gb-chem.net

8	<b>GBsize PP Conc.</b>	Size for staple-fiber yarns composed of cellulosic fibers, polyester/ cellulosic blends, wool and polyester/wool blends. adhesive for general purposes
9	<b>GBsize CO conc</b>	Concentrated Water-soluble sizing agent for: -polyester filament yarns -warp yarns composed of cellulosic fibers and polyester/cellulosic fiber blends. -And is particularly suitable for sizing of denim warps.
10	<b>GBspinning Wax</b>	Sizing wax as an additive to sizing liquors and for post-waxing
11	<b>GBwax P</b>	Sizing wax added to sizing liquors. Used for the finishing of woven and knitted goods composed of cellulose fibres and their blends with synthetic fibres. - Exceptionally suited as a smoothing agent. - Improves tear strength and abrasion resistance. - Improves sewability. - When applied in resin finishing GBwax P reduces the tendency to creasing. - The achieved effects are very good wash resistant. - Suitable for embossed, schreiner and chintz finishing.
12	<b>GBspinning Wax Plus</b>	concentrated Sizing wax as an additive to sizing liquors and for post-waxing.
13	<b>GBspinning Oil AF</b>	Up to date spinning/ weaving & sewing oil. (high viscosity ) Granting high luster , brilliance as well as higher strength .
