

GBsuper pig guide recipe **As a tinter for any type of water based paint**

(for 1% shade)

Take 10 l of water

Add slowly (under stirring) 1 kg GBsuper pig

Stir for 10 min

**After stirring, this will turn into color paste which will be used as
Stainer or tinter**

Take 100 kg of any water based white acrylic emulsion paint

Add 2 kg of the above made stainer or tinter

Now stir for 10 minutes with high-speed stirrer

Adjust viscosity by adding normal water.

(repeat the operation for 5- 10% strength by increasing the quantity of **GBsuper pig**
and water proportionately.)

Advantage

GBsuper pig is very easy for blending because of its power form,
you can get the desired shade by mixing to different colors of **GBsuper pig**
Example- **GBsuper pig** yellow + **GBsuper pig** blue will give you green color, in
case if you need the shade to more redder, you can add small quantity of **GBsuper**
pig red too. This will give you your desired shade.

Please note **GBsuper pigment can be used directly on any paste while
gentle stirring .**
